## THE FORGOTTEN AGE

“Once more I ventured within those brooding ruins  
that swelled beneath the sand...”

—H.P. Lovecraft, “The Nameless City”

We think we know the history of the Earth, but there are secrets that lie beyond our reckoning and truths that could undo our entire understanding of the universe. When renowned historian Alejandro Vela discovers one of these secrets, the ruins of an ancient and forgotten Aztec city, it sets into motion a plot that could unravel the very fabric of time.

The Forgotten Age is the third deluxe expansion for ArkhamHorror: The Card Game. Here, your team of investigators embark on a scientific expedition to the rainforests of Southern Mexico in two new scenarios, followed by adventures spread across the familiar city of Arkham and across time. This expansion introduces multiple new mechanics, including alert enemies, sealed chaos tokens, and an all new exploration deck that presents
